

SMACC EMERGENCY MEDICINE UPDATES

Tuesday 26th March 2019 0800 – 1200

Time	Session
0810	Aidan Baron PARAMEDIC-2 (epi = ROSC but neuro insult), AIRWAYS-2 + PART (BVM or LTI vs ETI).
0825	Jeremy Faust What even IS “usual care” in 2019?
0840	Ken Milne Best literature of 2018
0855	Ahilan Parameswaran Nailing that paediatric LP: the role of ultrasound
0910	Lauren Westafer PE: Next Generation. Why wouldn't we treat a subsegmental PE? Who can safely be ruled out with d-dimer?
0925	Adam Rehak Airway management – it's a team sport, not a technical skill
0940	John Vassiliadis How do be Mr Spock or Roger Federer with kids
1000	MORNING TEA
1040	Alister Martin What is the evidence for initiating medication assisted treatment in the ED for opioid abuse disorders? Can we/should we?
1055	Salim Rezaie What's the latest on TXA for trauma, post-partum hemorrhage, epistaxis, dialysis patients, ICH (TICH2)
1110	Barbra Backus Going over the new universal MI definitions and implications for treatment. Do we really need heparin? Statins? Dual anti-platelet therapy? What's the evidence really say?
1125	Gerrie Potgieter Blood or brain? Head CT updates
1140	Best literature of early 2019
	Q&A Panel/Round Table
